CHANDUBHAI S PATEL INSTITUTE OF TECHNOLOGY (CSPIT),
CHARUSAT
WEEKLY REPORT

Week No: 02 Date from: 23/12/2024 To 06/01/2025

Student ID: D22CE176 Student Name: Jayur Pithava

Project ID:

Project Title:

Work Done in last week (Attach Supporting Documents):

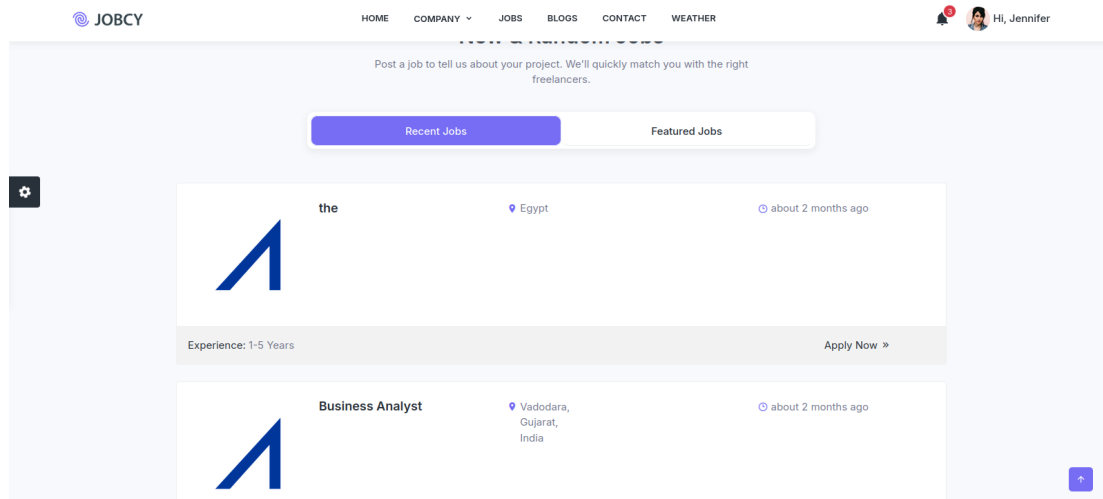

Overview: In this two weeks, I was assigned to a team. I set up my GitHub account and cloned all the projects into my pc. In these weeks, I worked on demo website Jobcy and Headless content management system.

Task 1:

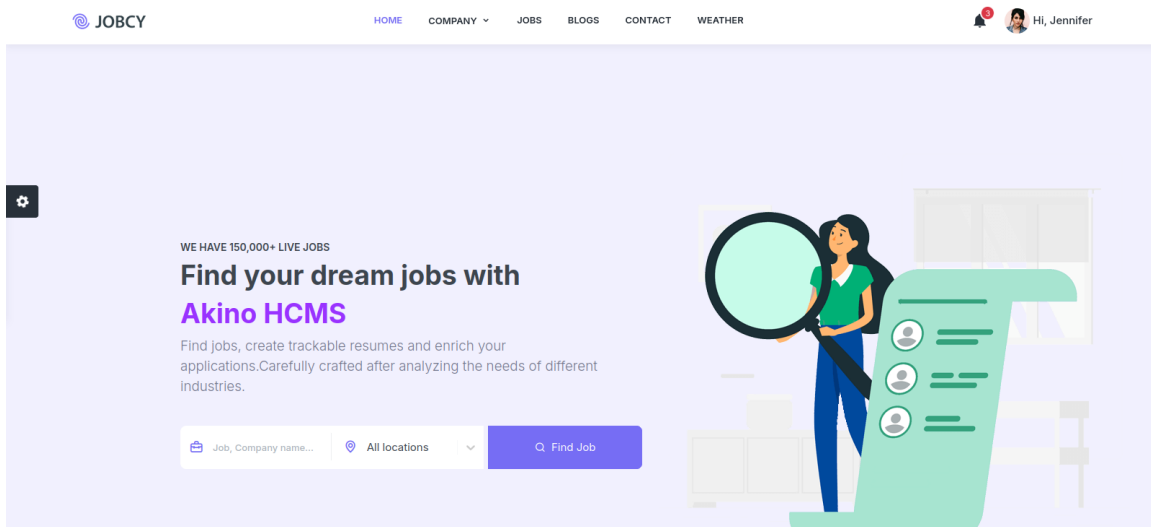

- Clone all the projects and run it on local machines to check if it is working properly.

Task 2:

- In the home page of Jobcy, all the data was static. My task was to get all the data from the database and display it in the jobs section in the home page in both recent and featured job tabs.

Task 2: Fixes bugs in filter and search function of the jobs in the home page.

Reason for Incomplete Work / Comment by guide

No pending work

Comment: Explore new learnings and implemented them.

Plans For next Week:

- Next week, I am going to work on different modules of Jobcy website and integrate it with HCMS.
