CHANDUBHAI S PATEL INSTITUTE OF TECHNOLOGY (CSPIT),  
CHARUSAT  
**WEEKLY REPORT**

Week No: 05 Date from: 01/02/2025 To 17/02/2025

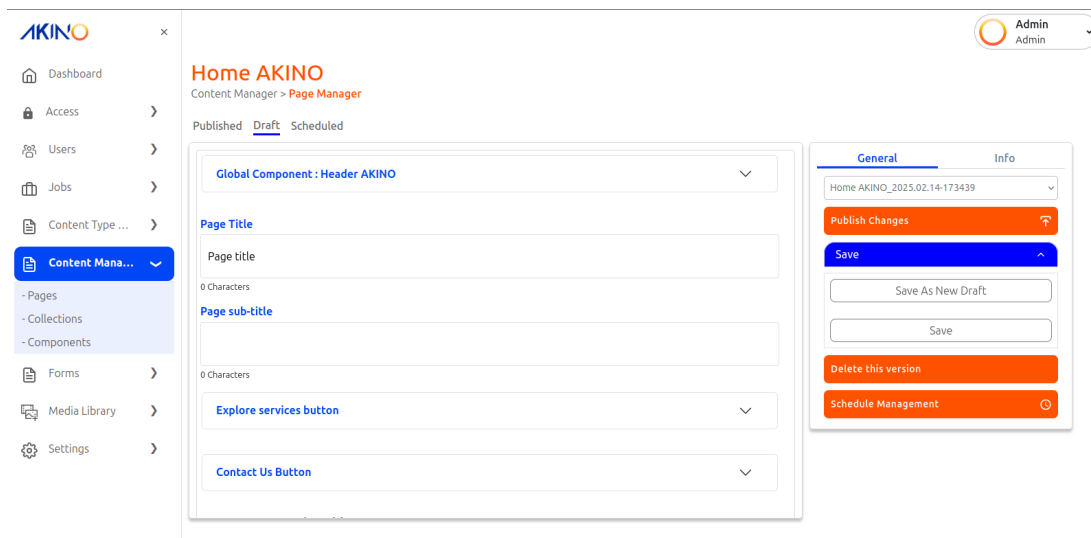

Student ID: D22CE176 Student Name: Jayur Pithava

Project ID:

Project Title:

**Work Done in last week (Attach Supporting Documents):**

- In these two weeks, I was working on a product called Akino Curate which is a Headless Content Management System. It works like admin panel for any website we integrate it with.
- My primary task was to implement draft feature in Content Management. Content Management is used to manage content on any website. Using this feature, user can create a draft or schedule any draft version to publish on given time.

- In this screenshot, we can see three sections in top. Published, draft and scheduled. There is also a drop down on right side to select a version and user can edit that version.

**Reason for Incomplete Work / Comment by guide**

No pending work

Comment: Explore new learnings and implemented them.

**Plans For next Week:**

- In next week, I am going to finish current task and resolve all bugs.

**Signature of Student:** Jayur Pithava

**Signature of External Guide:** Nikunj Shah

**Signature of Internal Guide:** Assistant Professor. Rikita Chokshi
