Project Title:

Work Done in last week (Attach Supporting Documents):

- In first week, I was working on bugs and change requests for AKINO Curate. There were many bugs related to UI and functionality.
- After completing the bugs and CRs, I was assigned to new project. I was assigned to re create https://aloishealthcare.com/ website. My major responsibility was to create reusable component of the website.
- Udring my second week, I created nav-bar, and components of homepage like hero section, carousels, contact section, testimonial section etc.
